BUYER REGISTRATION FORM INSTRUCTIONS

FILING OPTIONS:

- New registrants have the option to start receiving monthly lists in the first month following registration or to delay receiving lists until July of the year in which the registration was filed.
- Termination is required only if the buyer chooses to terminate the registration before July 1. Registrations automatically expire June 30 if not renewed.
- The information on the original registration may be amended by clearly identifying the information to be changed.

THE FOLLOWING IS A COMPLETE LIST OF FEES FOR REGISTERING TO RECEIVE LISTS:

- The annual registration fee is \$25, for all formats.
- E-mail lists are in a text format where you read from left to right. This option has no additional charge associated with it, other than the annual registration fee of \$25.
- Paper lists containing all products, counties and crop years: \$400 annually per buyer plus the \$25 registration fee.
- Paper lists containing specific products, counties and crop years: \$250 annually per buyer plus the \$25 registration fee.
- Digital Media i.e. CD's come in a format appropriate for the type. The annual fee for any form of digital media is a \$200 fee plus the \$25 annual registration fee. Please call our office at 651-296-2803 if digital media format is your option.

BUYER'S INFORMATION:

• The buyer's name and mailing address must be clearly listed on the registration form. The name and phone number of a contact person is also required.

LIST FORMAT:

- Only one list format option may be included on each registration form.
- The word "Complete" following the format type means each monthly list is a total reproduction of the information requested.
- The word "Update" following the format type means the first monthly list issued to the buyer is a total reproduction of the list information requested and each subsequent list will contain only additions and deletions of CNS filings. You must check one of the options.

SORT OPTION:

• The buyer has the option to request the list sorted alphabetically by debtor name or numerically by debtor identification number for paper format only.

REPORT CONTENTS:

- Effective Financing Statement Report (EFS) Buyer would receive a report consisting of only EFS data.
- <u>Statutory Lien Report</u> Buyer would receive a statewide report consisting of only Statutory Lien Data. A statutory lien is filed by a Lienholder (i.e. veterinarian, crop sprayer, landlord) to protect their security interests for services or materials rendered. A statutory lienholder has the right to put conditions on the release or waiver of the lien which support the filing. The lienholder may require that a joint check be issued to all involved parties. **Note:** <u>Lenders may have inadvertently filed the CNS-1 as a statutory lien.</u> <u>In order to locate all EFS and filings for which a buyer may be liable, we recommend that you order both lists.</u>

LIST DESIGNATION - FARM PRODUCTS, COUNTIES AND CROP YEARS:

- Use the table of product codes provided to identify the farm product(s) you want to appear on each list. If 100 and/or 500 are listed, do not list any other product code.
- Use the table of county codes provided to identify the counties you wish to have the list include. In order to have a valid buyer registration, you must designate at least one county where the crop is grown or located.
- Crop years are optional and not required to be included for a list designation. UNLESS OTHERWISE STATED IT WILL BE ASSUMED THAT YOU WANT ALL CROP YEARS INCLUDED ON THE LIST.
